

Career development workshop

Organised and hosted by the British Ecological Society and based on feedback from early career researchers this workshop offers advice and support for PhD and Post Doc in developing their careers.

Times	
13.45	Welcome and introductions: It's all about knowing how and when and what to communicate: A chance to break the ice, identify good networking skills
14.00	Secrets of a successful career: What do all successful researchers and scientists have in common? This is a panel discussion with senior ecologists
14.30	International Funding: Which funding opportunities are available to PhD and early career researchers. What can you do now, to make funding in the future easier?
15.00	Coffee Break
15.30	Networking skills: other strategies, staying in touch and social media
15.45	Publishing: A guide to getting published delivered by our managing editors and associate editors
16.30	Programme end
